WORK EXPERIENCE

Lane Community College

Dec. 2021 – Present

Electronic Services (Technology Equipment Systems Technician – Advanced) | Jun. 2025 – Present Eugene, Oregon

- Install, and maintain audiovisual (AV) systems across LCC campuses, including smart classrooms, conference rooms, and digital signage.
- Configure and support Extron control systems, integrating AV hardware with campus network infrastructure and user interfaces.
- Independently and collaboratively troubleshoot and resolve complex issues in AV presentation technology, audio systems, and control platforms with a focus on long-term reliability and ease of support.

Media Services (Information Technology Technician-Advanced) | Aug. 2023 – Present

- Configured, set up, and operated AV equipment for hybrid college events and video productions.
- Projects included four graduation commencements, monthly Board of Education meetings, in-service events, and filming/postproduction for college productions, often while also overseeing student workers.
- Ongoing collaboration with the media services team to refine and improve AV systems. Integrated Dante AV over IP into our workflow to expand audio capabilities while simplifying setup.

Library Technology Services Coordinator (Information Technology Technician-Advanced) | Dec. 2021 – Jul. 2023

- Assisted students with self-service computer lab, Zoom, Moodle, printing, login issues, navigating LCC online services, and technical issues, while also supporting student workers in assisting students with technical issues.

Resonate / RChain Co-ops

Apr. 2018 – Jul. 2019

UX Designer/Developer

Remote

- Collaborated with the product and marketing teams at two connected startups to envision and design UX (user experience) for a blockchain-based music streaming and social media platform.
- Designed and prototyped a new type of mobile app for artists, promoters, and venues to connect.
- Coded web interfaces in React and collaborated with an overseas development team for backend programming.

Sofie Biosciences

Nov. 2012 – Jul. 2017

Sr. Designer - UX/UI and Brand

Los Angeles, California

- Executed all marketing and digital product design efforts, collaborating with engineers, developers, and the executive team to create useful and stylish products and marketing.
- Increased product utilization by designing and coding attractive software and web interfaces with simplified user experiences. Increased brand awareness by creating brochures, emails, shirts, and a tradeshow booth.

Apple

Sep. 2010 - Mar. 2012

Retail Sales and Support Specialist

Los Angeles, California

- Applied advanced knowledge of Apple hardware and software in troubleshooting and sales.
- Troubleshoot damaged or malfunctioning iPhones, iPads and iPods and trained customers on Mac OS and IOS.

Self-employed

Jun. 1999 - Present

Freelance Digital Designer and Developer | Sep. 2006 – Apr. 2024

Hybrid in multiple locations

- Independently led web, software, and print design projects for clients in music, restaurant, fitness, and auto industries.
- Built long-term client relationships and managed full project lifecycles.

Freelance Audio Engineer | Jun. 1999 – Present

Hybrid in multiple locations

- Started my career at Hyde Street Studios in San Francisco as an assistant engineer on recording sessions setting up microphones, patching outboard gear, aligning tape machines, ensuring proper routing and functionality, and troubleshooting equipment.
- Continued produce independent music and work live sound over the last 25 years including starting a small studio with a friend. A significant portion of this work involves implementing and troubleshooting equipment.
- Have worked with a broad range of clients including George Clinton and the P-Funk All Stars, David Denny of the Steve Miller Band, Hieroglyphics, Ziggy Modeliste of the Meters, Intronaut, and Sage Francis.
